SOFTWARE ENGINEER

Latur, India

SUMMARY

Dedicated and detail-oriented Computer Science graduate with a strong foundation in programming languages and problem-solving. Proficient in software development and eager to contribute innovative solutions. Possesses excellent teamwork and communication skills developed through academic projects. Adaptable and quick learner, seeking opportunities to apply technical skills in a dynamic professional environment.

EDUCATION

Dr.Babasaheb Ambedkar Technological University - 2023

Bachelor's Degree in Computer Engineering
CGPA - 8.65

Puranmal Lahoti Gov. Polytechnic

Diploma In Information Technology
Percentage – 69.00%

Maharashtra State Board 10Th

Percentage – 82.60%

PROJECT

Driver drowsiness detection

A driver drowsiness detection project aims to enhance road safety by using computer vision and machine learning to monitor a driver's state of alertness. Through real-time analysis of facial and behavioral cues, such as eye movements and head position, the system can issue alerts or take preventive actions when it detects signs of drowsiness, reducing the risk of accidents caused by tired or inattentive drivers.

CERTIFICATIONS

- Udemy HTML and CSS Certificate

LANGUAGE

- English
- Hindi
- Marathi

SKILLS

SQL

- Good Understanding of RDBMS Concepts Like Constraints, Normalization, Table etc.
- Excellent Knowledge of Writing SQL Queries.
